

Angel Gabriel Aeronautics

TRADE FACT SHEET · 2026–2027

Private charter flights to safari lodges and bush airstrips across Southern Africa

Angel Gabriel Aeronautics has arranged private charter flights across Southern Africa since 2013. From our base at Lanseria International Airport in Johannesburg, we arrange lodge transfers, fly-in safaris and private charters to bush airstrips across South Africa, with cross-border flights to Botswana, Mozambique and Namibia.

How pricing works

We do not publish seat rates. Every flight is a private charter, priced for the route, dates and group, so the whole aircraft is your guests' alone. Send us any guest movement and we will come back with a quote.

To request a quote

Email quotes@angelgabriel.co.za or use flyangelgabriel.com/rates-and-quotes with:

- Route, including lodge names
- Travel dates and preferred times
- Number of passengers (adults and children)
- Luggage, especially hard cases or heavy items
- Any special requirements

Booking notice and departures

- **Domestic flights:** at least 48 hours
- **Cross-border flights** (Botswana, Mozambique, Namibia): at least 72 hours
- Shorter notice is often possible, subject to aircraft availability
- **Departures:** Lanseria and OR Tambo, Johannesburg. Cape Town and other airports in Southern Africa on request

Popular destinations

GREATER KRUGER

Kruger National Park · Sabi Sands · Timbavati · Thornybush · Royal Malewane · Ulusaba · Hoedspruit

LIMPOPO · NORTH WEST

Madikwe Game Reserve · Marakele National Park · Waterberg Biosphere Reserve

BOTSWANA · TULI

Mashatu Game Reserve · Lubbesrust Farm

Not on the list? We arrange flights to any airstrip in Southern Africa.

Aircraft

We match the aircraft to the group, the luggage and the runway at the other end:

- **Light aircraft** for couples and small groups: Cessna 206 and 210, Beechcraft Baron and Bonanza
- **Turboprops**, the bush workhorses: Cessna Caravan, Pilatus PC-12, King Air 90, 200 and 350
- **Larger groups**: Beechcraft 1900D, Embraer 120 and 145
- **Helicopters**: Bell 407 and 505, Eurocopter B3

Luggage

The baggage allowance depends on the aircraft and is confirmed when we quote. Please ask guests to pack in **soft duffel-style bags** and avoid hard-shell suitcases. Most safari lodges recommend the same.

Light aircraft are weight-sensitive, and passenger weights are calculated to civil aviation standards. Full details are in our Terms and Conditions.

Cross-border flights

We handle the paperwork and coordination that cross-border flying involves: customs clearance, overflight permits, immigration coordination, airstrip conditions and ground coordination at both ends.

Safety and insurance

Every operator we book holds a valid Air Operator Certificate (AOC) issued by the South African Civil Aviation Authority (SACAA) or the equivalent authority in its country of registration.

Aviation insurance is held by the operator of each flight and is tied to the specific aircraft used, so we supply the certificates per flight, on request.

Arranged alongside a charter

- **VIP meet and assist** at OR Tambo, Lanseria and Cape Town: fast-tracked check-in, security and immigration
- **Airport shuttles and lodge road transfers** across Gauteng, Cape Town and the Kruger area
- **Luggage storage** at OR Tambo and Cape Town International: leave the hard cases behind on a bush flight and collect them on the way home
